

Córdoba

Argentina

Argentina's second city is a marvellous mixture of the old and the new. It is home to a wide range of monuments and historical sites from Argentina's colonial past, including glittering cathedrals and churches, and palatial mansions which now house museums and art galleries. However, Córdoba is also a lively student city with a fine array of riverside bars and restaurants.

Our Córdoba school enjoys a **central position**, near to both historical sites and fashionable shops. As well as 11 classrooms, it has a small **outdoor swimming pool**, games room, common room and an entertainment room.
