

Flamingo Beach

Costa Rica

Horse-back riding along the beach

Costa Rica is a beautiful tropical country, with an incredibly wide variety of landscapes, climates, animals and vegetation. The untouched mountain rain forests, palm-fringed Pacific and Caribbean beaches, reefs, volcanoes, and jungles make this a paradise for nature lovers.

Flamingo Beach, with its ivory-white sands and crystal clear waters, is one of the most spectacular beaches in Guanacaste, a province famous for its unspoilt coastline, turtles, reefs, volcanoes, **snorkelling and surfing**. The climate is **hot and sunny** throughout most of the year, and drier than most of Costa Rica, with occasional rainy days usually limited to September-October. The area is completely **untouched by mass tourism, unspoilt**, waiting to be discovered. As the school organises a range of visits and excursions, Flamingo Beach is an ideal base from which to explore the rest of Costa Rica.

Our school is ideally located, just **5 minutes' walk from the beach**. There are 16 **air-conditioned** classrooms, cafeteria, a study/Internet room and an **on-site swimming pool**. Students are accommodated in **host families** in the nearby villages, or in studio apartments (with pool), or in hotels if preferred. A free shuttle bus operates between the accommodation and school in the mornings and afternoons. The school organises a wide range of **optional extra activities** - **Salsa** dancing lessons, beach barbeques, horse-back riding, cookery lessons, sailing trips, surfing trips, **rain forest excursions**, to mention but a few! **Volunteer work** is also available during or after the course.

Star Points

- ★ School is 5 minutes away from stunning beaches!
- ★ On-site swimming pool at school
- ★ Maximum class size of just four students
- ★ Varied activities programme on offer
- ★ Student co-ordinator provides personal attention
