Chile

Santiago de Chile

Stretching over half the length of South America, Chile boasts snow-covered mountains, baking deserts, beautiful Pacific beaches and mild, temperate rain forests.

Chile is a far more developed and prosperous country than most in Latin America, with a stable political system and flourishing economy. With magnificent landscapes and incredible natural beauty, yet at the same time predominantly safe and very accessible, Chile is the perfect choice for anyone interested in learning Spanish in Latin America.

**Santiago de Chile**, the capital, is ideally located, in the centre of the country, half way between the Andes Mountains and the Pacific coast. Santiago is a modern capital city, with a high standard of living, excellent shopping, incredible nightlife, first-rate sports facilities and communications.

**Our school** stands in its own grounds, in a prosperous residential area of Santiago. The school has 15 classrooms, a library, Wi-Fi Internet access throughout the building, an Internet café and school patio. The maximum group size is just 6 students, providing lots of personal attention to each and every student.

As well as standard Spanish courses, our school offers a **'Spanish and Skiing'** course, plus a wide range of trips, sports, visits and excursions. There is also a **'Multi-Stay'** course, allowing students to **divide their course** between our schools in **Santiago (Chile)** and in **Buenos Aires (Argentina)**, connecting flights and airport transfers arranged.
